

Overview

This event provides recognition for FBLA members who demonstrate an understanding of and ability to provide technical assistance to end users. The ability to provide technical assistance to the users of computer hardware and software is essential to the success of any organization and its continued operation.

This event consists of two parts: an objective test and a performance. The top fifteen individuals scoring the highest on the objective test will advance to the final round and participate in the performance role-play component.

This is an individual event.
